EXPERIENCE

The Iron Yard   Houston,TX   -   2014 - Present
Front-End Developer Student
Building web applications using HTML5, CSS3 and JavaScript. Working with multiple API and JSON data, combined with MVC frameworks such as BackboneJS. Using GitHub and Heroku to deploy.

Spectra Energy   Houston, TX   -   2007 - 2014
Senior IT Analyst
Supported desktop (hardware/software), connectivity, offsite staging, equipment cycling, ordering of equipment, and all other dedicated support for the Engineering Department nationally. Managed a small team to provide a more efficient and effective service to the Engineering Department that corporate IT could offer.

Sunoco Logistics   Sugar Land, TX   -   2005-2007
Team Lead Desktop Support Technician
Provided desktop technical support for 1000+ Western Region employees. Problem solved hardware, software and connectivity issues for a mixed Windows 9x/2000/XP and mainframe environment.
